Beaconsfield Primary School | Hale Street Beaconsfield WA 6162 | 9430 7055 | [beaconsfield.ps@education.wa.edu.au](mailto:beaconsfield.ps@education.wa.edu.au)

Dear parents and caregivers

What a wet, wild and cold couple of weeks! Please make sure your child's jumpers are clearly labelled as we have a number that make their way into our growing collection of lost property.

Our school is currently focusing on attendance and our Attendance Policy has been reviewed to reflect this priority. This was recently endorsed at the Week 3 Board Meeting. As a school community, we believe that every day at school matters. Each day of absence makes a difference, with the effect on learning accumulating over time. In order to align with the Education Department's strategic focus on lifting attendance rates, our policy now contains the following statement:

*For all students, it is the school's preferred position that parents do not organise leave during the school term. If contemplating an extended absence parents must consider that this will affect their child's progress and achievement. Parents need to notify the principal in writing for approval, if they intend to apply for leave. The examples of approved absences include: bereavement, serious illness of a family member or sporting representation at a state or national level. Examples of unapproved absences include family holidays. By proceeding with the holiday parents are acknowledging that their child's assessment program may not be able to be completed.*

Whilst we understand that parents may still choose to remove their children for vacations during the term, and acknowledge the various reasons for this, we will no longer be authorising them. This brings the school in line with the Education Department and the Education Act. We have uploaded our reviewed Attendance Policy to the SkoolBag app and it is also available through the front office. If you have any further questions, please feel free to discuss them with me.

Next week Brett Morellini takes partner leave as he awaits the birth of his first child. We wish Brett and Carina all the best and look forward to announcing the arrival of beautiful baby Morellini.

## Upcoming Events

### 13 August:

Science Week

Playgroup 9-10:30

Adult Fitness class on side oval 3:30pm – 4:30pm

### 16 August:

Interschool Cross Country

P&C meeting

### 17 August:

School Development Day – students do not attend

### 21 August:

Choir performance at St Paul's

### 23 August:

Book Week Parade

### 24 August:

School Photos

P&C Disco

A gentle reminder that next Friday is our Term 3 school development day. This provides the opportunity for our staff to work together collaboratively on professional development. This term our focus is on Explicit Teaching, in line with the Education Department's 2018 Focus of *'Implement an explicit teaching methodology in every classroom'*. Explicit teaching is when the teacher clearly outlines the learning goals for students and gives a clear understanding of the skills, knowledge or information required to achieve the goals. Explicit teaching also focuses on the importance of providing students with purposeful and understandable feedback to support achievement. An expert in explicit teaching models from WAPPA will be presenting to our staff. We look forward to a day of gaining new knowledge and looking at ways we can improve teaching and learning in the classrooms at Beaconsfield.

In recognition of his fabulous work in Room 13, last term Brett Morellini was nominated by parents for the WA Premier's Primary Teacher of the Year. This award recognises primary school teachers who are knowledgeable, caring and creative – and passionate about inspiring younger students to want to learn. Whilst Brett was not selected as a finalist, his nomination is testament to his ability to engage and inspire his students. Thank you to the parents who acknowledged this through the nomination and to Brett for his continual dedication to his students.

Next week is Science Week and I want to acknowledge the hard work that Lauren Osborne has put into organising a fun-filled week for our budding scientists. Monday will see Science Week kick off with a tabloid day, whereby students will experience a variety of activities and experiments. Other major events that are happening across WA to celebrate science and innovation are:

8–28 Peel Bright Minds Science Café Series (various locations)

11–19 August Goodness Festival in Geraldton

16–19 August Nannup Flower and Garden Festival

18–19 August Perth Science Festival – Robinson Pavilion Claremont Showgrounds

29–30 August Mud and Saltwater Film Festival in Broome

*Kirsten Dicker*

Principal

10 August 2018

## Faction Cross Country and Junior Fun Runs

On Friday 27 July, our school conducted the annual Faction Cross Country and Junior Fun Run. Thankfully, the weather was fine for the most part and we all came away from the events feeling happy – and dry! Our students were wonderfully behaved and tried their best regardless of their abilities.

Our Years 3 – 6 students participated in the Faction Cross Country Run, and in doing so, gained points for their Factions. The first five place getters for each year level are listed below. These students will be representing the Beaconsfield Primary School at the CDSSA Interschool Cross Country competition on 16 August at Manning Park.

Mr Palermo wishes to thank all who helped put this wonderful day together, such as our staff and terrific faction captains. Thanks to parents for supporting the day by coming to cheer on their intrepid runners! Special thanks to Mrs Lechte, for her invaluable advice to Mr Palermo.

**Ray Palermo**

4th	Phraewa Jongjet (Lefroy)	Marco Perrone (Hale) & Angus Horton (Scott)
5th	Eunchae Sung (Scott)	Will Prakochue (Hale)

## Rugby Tickets

In conjunction with Rugby WA and the Western Force an enticing opportunity has arisen for next Friday night's game. We have been afforded an amount of complimentary tickets for the Western Force vs. Wild Knights (Japan). The game will be held on 17 August, 6:30pm at NIB Stadium. If you would like to attend, can you please leave your name and number of tickets required with the front office staff. We will then make arrangements for the collection of tickets after school on Thursday.

The relationship between Beaconsfield and Rugby WA has been one of the great shining lights this past year and the HPE committee has been working tirelessly to improve engagement and health outcomes by organising opportunities for students and the community to partake in school sports clinics and professional player meets. Recently the 'Beacy Dads' group and students of Room 16 were the recipients of tickets to the Force vs Hong Kong.

If you have any queries regarding the upcoming event please touch base with Mr D in Room 16.

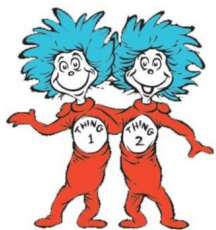

## Beaconsfield Choir visit to St Paul's

On Tuesday 21 August the choir will visit St Paul's Anglican Church in Beaconsfield to sing for the Elderly Morning Tea. The students will then serve morning tea and chat to the elderly.

We will leave school at 9.45am and return after the morning tea finishes at 11am. The organisers at St Paul's have extended a welcome to parents and grandparents of the choir to come along and listen, but more importantly, we still need **two parent helpers to assist for the duration of the excursion.** Please see Avril Mulligan in the music room if you can help, or let your child's class teacher know.

Avril Mulligan

## Book Week

Children's Book Week this year is from 18 August - 24 August. At Beaconsfield Primary School we will be celebrating with a book fair and a dress up day. Please see the poster in this newsletter for details of the book fair. The **dress up day** is Thursday 23 August. On this day students are encouraged to come to school dressed as their favourite book character. Parents and community members are welcome to attend our parade of book characters in the undercover area at 9.00 am.

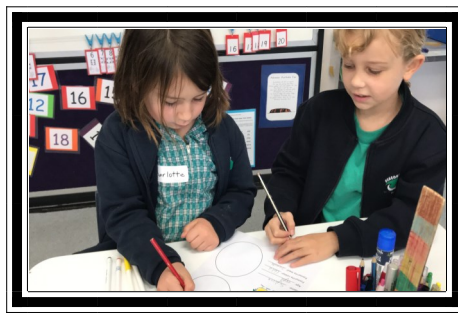

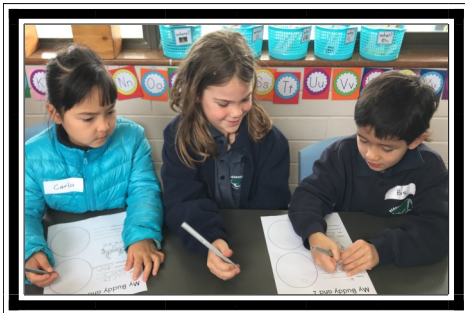

## Hampton Road Crossing

A number of community members attended the Fremantle City's information session on the Hampton Road crossing. Many interesting points were made and if your family uses this area, I encourage you to have your say on the City of Fremantle's community engagement portal at [mysay.fremantle.wa.gov.au/hampton-road](https://mysay.fremantle.wa.gov.au/hampton-road).

## Room 20 & Seahorse Buddy Class

Room 20 and Seahorse had a blast on Friday! We have paired up for a Buddy class session every fortnight. Last week we got to know each other by asking some 'interview questions'. We found out what our buddy's favourite meal and colour is. The Pre-Primary students had a chance to show their Year 3 buddy what their favourite book was too. This is a great opportunity for all students to build their self-confidence as well as their social interactions. In Room 20, we will be focussing on what it looks like to be a positive mentor and what skills we need to be practising when we visit our Buddy class. We'll see you again soon Buddies!

### By Room 20

## Rottnest News Week 4

Hello all, we are excited about our next trip over to the mainland. On Monday we will spend the day at Beacy, delving into the Science Week Tabloid Day and we can't wait!

Last week, we had a local excursion to visit The Nursing Post on the island. It was very interesting to see how the paramedics help visitors and community members if they have a medical problem.

It was surprising to find out that the most common treatment at the Nursing Post was for Quokka bites! Who knew they were so dangerous?

The children learned what to do if they are stung by a jellyfish, as well as how to treat a snakebite. Everyone also enjoyed climbing into the back of the ambulance to see all the emergency equipment.

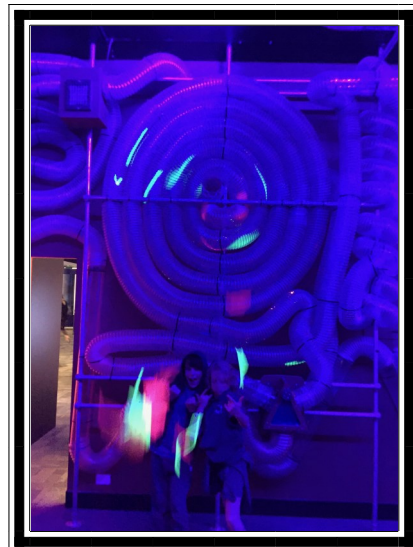

## Scitech Excursion Rooms 15 and 16

On Monday 30 July, the Year 4s and 5s from Rooms 15 and 16 set out on an excursion to Scitech. It was a full on day with games, challenges, activities and more. Some of the highlights included; the Planetarium show 'Planet Nine', the 'Things that Glow' theatre show and the 'free time floor' where students could play with robotics, investigate how wind works and explore infra-red lights. Students were particularly in awe of the colourful explosions that took place in the live show, but after discussing the excursion on the bus ride home it appears that the fan favourite was 'Laser Dodge'. In 'Laser Dodge' students had to masterfully make their way through a challenging dark room whilst avoiding the 'Laser' sensors. Well done to all the students who persisted in this challenge and were able to 'beat it' by the end of the day. I will be in touch with you all shortly in regards to an upcoming bank job :)

Well done to the Beacy students who attended, your behaviour exemplified the school values. Mr D would also like to express a massive thank you to all the parent helpers and Miss Hart who assisted on the day. Your efforts allowed the excursion to go off without a hitch.

**Mr Dansey**

## A large orange silhouette of a human head in profile, facing right. Inside the head, several interlocking gears of different sizes are visible, symbolizing thought and processing. Surrounding the head are numerous circular icons, each containing a white graphic on a colored background. These icons represent a wide range of subjects: a rocket (space), a bridge (engineering), a sailboat (maritime), a lightbulb (ideas), a test tube (science), a book with a heart and lightning bolt (knowledge/emotion), a fish and coral (oceanography), a palette and pencil (art), a magnifying glass (research), a globe with arrows (globalization), a DNA helix (biology), a hand holding a flower (nature), a pi symbol (mathematics), a magnet (physics), a bee (insects), a pyramid (ancient history), a globe (geography), a brain (neurology), a compass (navigation), a book (literature), a gear (mechanics), a sun (astronomy), a leaf (environment), a microscope (medicine), a cloud (technology), a star (cosmos), a flower (botany), a mountain (geology), a river (hydrology), a city skyline (urban planning), a car (transportation), a plane (aviation), a ship (naval architecture), a building (architecture), a person (anthropology), a tree (ecology), a water drop (meteorology), a fire flame (chemistry), a bone (paleontology), a fossil (archaeology), a map (cartography), a clock (time), a calendar (history), a newspaper (journalism), a camera (photography), a film strip (cinema), a musical note (music), a paintbrush (visual arts), a sculpture (fine arts), a chess piece (strategy), a dice (probability), a coin (economics), a bar chart (statistics), a pie chart (mathematics), a line graph (data analysis), a computer monitor (technology), a smartphone (communication), a laptop (information technology), a server rack (computing), a network diagram (computer science), a virus (microbiology), a cell (biology), a molecule (chemistry), a crystal (mineralogy), a planet (astronomy), a galaxy (cosmology), a nebula (astrophysics), a black hole (physics), a quantum particle (quantum mechanics), a string theory diagram (theoretical physics), a spacetime curvature diagram (general relativity), a cosmological model (cosmology), a timeline of evolution (biology), a phylogenetic tree (taxonomy), a geological cross-section (geology), a climate change diagram (earth science), a sustainable development goal icon (social sciences), a peace symbol (politics), a handshake (business), a contract (law), a scale of justice (ethics), a moral dilemma (philosophy), a logic gate (computer logic), a binary code (digital computing), a neural network (AI), a cognitive map (psychology), a memory palace (cognition), a dream sequence (psychiatry), a Freudian slip (linguistics), a linguistic tree (linguistics), a historical event (history), a cultural festival (sociology), a religious symbol (religion), a philosophical concept (philosophy), a scientific discovery (science), a technological innovation (technology), a social movement (sociology), a political system (political science), a legal precedent (law), an ethical framework (ethics), a philosophical argument (philosophy), a mathematical proof (mathematics), a logical fallacy (logic), a psychological experiment (psychology), a biological process (biology), a chemical reaction (chemistry), a physical law (physics), an astronomical observation (astronomy), a geological formation (geology), a meteorological phenomenon (meteorology), an ecological interaction (ecology), an anthropological finding (anthropology), an archaeological excavation (archaeology), a paleontological discovery (paleontology), a historical artifact (history), a literary work (literature), a cinematic masterpiece (cinema), a musical composition (music), a visual artwork (visual arts), a sculptural piece (fine arts), a chess strategy (game theory), a probabilistic event (probability), an economic principle (economics), a statistical trend (statistics), a computational algorithm (computer science), a communication protocol (communication), an information system (information technology), a medical breakthrough (medicine), a botanical specimen (botany), a zoological study (zoology), a mineral sample (mineralogy), a planetary body (planetary science), a cosmic ray (particle physics), a gravitational well (gravity), a quantum entanglement (quantum physics), a string vibration (string theory), a spacetime metric (general relativity), a cosmological constant (cosmology), an evolutionary pathway (evolutionary biology), a taxonomic classification (taxonomy), a geological stratum (geology), a climate model (climate science), a sustainable resource (sustainability), a peaceful resolution (peace studies), a business deal (business), a legal case (law), an ethical dilemma (ethics), a philosophical inquiry (philosophy), a mathematical theorem (mathematics), a logical deduction (logic), a psychological theory (psychology), a biological mechanism (biology), a chemical compound (chemistry), a physical constant (physics), an astronomical object (astronomy), a geological feature (geology), a meteorological event (meteorology), an ecological niche (ecology), an anthropological site (anthropology), an archaeological find (archaeology), a paleontological specimen (paleontology), a historical document (history), a literary classic (literature), a cinematic genre (cinema), a musical style (music), a visual medium (visual arts), a sculptural form (fine arts), a chess game (game theory), a probabilistic distribution (probability), an economic model (economics), a statistical hypothesis (statistics), a computational problem (computer science), a communication channel (communication), an information network (information technology), a medical treatment (medicine), a botanical species (botany), a zoological organism (zoology), a mineral resource (mineralogy), a planetary atmosphere (planetary science), a cosmic background radiation (cosmology), a gravitational field (gravity), a quantum state (quantum physics), a string configuration (string theory), a spacetime geometry (general relativity), a cosmological expansion (cosmology), an evolutionary adaptation (evolutionary biology), a taxonomic hierarchy (taxonomy), a geological layer (geology), a climate system (climate science), a sustainable future (sustainability), a peaceful world (peace studies), a thriving economy (business), a just society (law), an ethical standard (ethics), a philosophical truth (philosophy), a mathematical beauty (mathematics), a logical consistency (logic), a psychological insight (psychology), a biological wonder (biology), a chemical marvel (chemistry), a physical miracle (physics), an astronomical spectacle (astronomy), a geological marvel (geology), a meteorological wonder (meteorology), an ecological balance (ecology), an anthropological legacy (anthropology), an archaeological treasure (archaeology), a paleontological marvel (paleontology), a historical legacy (history), a literary gem (literature), a cinematic triumph (cinema), a musical genius (music), a visual masterpiece (visual arts), a sculptural feat (fine arts), a chess grandmaster (game theory), a probabilistic paradox (probability), an economic crisis (economics), a statistical anomaly (statistics), a computational challenge (computer science), a communication barrier (communication), an information overload (information technology), a medical mystery (medicine), a botanical enigma (botany), a zoological curiosity (zoology), a mineral rarity (mineralogy), a planetary anomaly (planetary science), a cosmic mystery (cosmology), a gravitational puzzle (gravity), a quantum conundrum (quantum physics), a string paradox (string theory), a spacetime riddle (general relativity), a cosmological question (cosmology), an evolutionary puzzle (evolutionary biology), a taxonomic confusion (taxonomy), a geological mystery (geology), a climate enigma (climate science), a sustainable challenge (sustainability), a peaceful conflict (peace studies), a business failure (business), a legal loophole (law), an ethical quandary (ethics), a philosophical riddle (philosophy), a mathematical paradox (mathematics), a logical contradiction (logic), a psychological mystery (psychology), a biological enigma (biology), a chemical puzzle (chemistry), a physical riddle (physics), an astronomical anomaly (astronomy), a geological mystery (geology), a meteorological enigma (meteorology), an ecological puzzle (ecology), an anthropological riddle (anthropology), an archaeological mystery (archaeology), a paleontological enigma (paleontology), a historical puzzle (history), a literary riddle (literature), a cinematic enigma (cinema), a musical mystery (music), a visual puzzle (visual arts), a sculptural riddle (fine arts), a chess enigma (game theory), a probabilistic mystery (probability), an economic puzzle (economics), a statistical riddle (statistics), a computational enigma (computer science), a communication puzzle (communication), an information mystery (information technology), a medical riddle (medicine), a botanical puzzle (botany), a zoological enigma (zoology), a mineral mystery (mineralogy), a planetary riddle (planetary science), a cosmic puzzle (cosmology), a gravitational enigma (gravity), a quantum mystery (quantum physics), a string riddle (string theory), a spacetime puzzle (general relativity), a cosmological enigma (cosmology), an evolutionary riddle (evolutionary biology), a taxonomic puzzle (taxonomy), a geological enigma (geology), a climate riddle (climate science), a sustainable mystery (sustainability), a peaceful puzzle (peace studies), a business enigma (business), a legal riddle (law), an ethical puzzle (ethics), a philosophical enigma (philosophy), a mathematical riddle (mathematics), a logical enigma (logic), a psychological puzzle (psychology), a biological riddle (biology), a chemical enigma (chemistry), a physical puzzle (physics), an astronomical enigma (astronomy), a geological riddle (geology), a meteorological puzzle (meteorology), an ecological enigma (ecology), an anthropological riddle (anthropology), an archaeological enigma (archaeology), a paleontological riddle (paleontology), a historical enigma (history), a literary puzzle (literature), a cinematic riddle (cinema), a musical enigma (music), a visual riddle (visual arts), a sculptural enigma (fine arts), a chess enigma (game theory), a probabilistic riddle (probability), an economic enigma (economics), a statistical puzzle (statistics), a computational riddle (computer science), a communication enigma (communication), an information puzzle (information technology), a medical enigma (medicine), a botanical riddle (botany), a zoological puzzle (zoology), a mineral enigma (mineralogy), a planetary puzzle (planetary science), a cosmic riddle (cosmology), a gravitational enigma (gravity), a quantum puzzle (quantum physics), a string enigma (string theory), a spacetime puzzle (general relativity), a cosmological riddle (cosmology), an evolutionary enigma (evolutionary biology), a taxonomic puzzle (taxonomy), a geological riddle (geology), a climate puzzle (climate science), a sustainable enigma (sustainability), a peaceful puzzle (peace studies), a business enigma (business), a legal puzzle (law), an ethical enigma (ethics), a philosophical puzzle (philosophy), a mathematical enigma (mathematics), a logical puzzle (logic), a psychological enigma (psychology), a biological puzzle (biology), a chemical riddle (chemistry), a physical enigma (physics), an astronomical puzzle (astronomy), a geological enigma (geology), a meteorological riddle (meteorology), an ecological puzzle (ecology), an anthropological enigma (anthropology), an archaeological puzzle (archaeology), a paleontological enigma (paleontology), a historical puzzle (history), a literary enigma (literature), a cinematic puzzle (cinema), a musical riddle (music), a visual enigma (visual arts), a sculptural puzzle (fine arts), a chess puzzle (game theory), a probabilistic enigma (probability), an economic puzzle (economics), a statistical enigma (statistics), a computational enigma (computer science), a communication puzzle (communication), an information enigma (information technology), a medical puzzle (medicine), a botanical enigma (botany), a zoological puzzle (zoology), a mineral enigma (mineralogy), a planetary enigma (planetary science), a cosmic puzzle (cosmology), a gravitational enigma (gravity), a quantum puzzle (quantum physics), a string enigma (string theory), a spacetime puzzle (general relativity), a cosmological puzzle (cosmology), an evolutionary enigma (evolutionary biology), a taxonomic puzzle (taxonomy), a geological enigma (geology), a climate puzzle (climate science), a sustainable puzzle (sustainability), a peaceful enigma (peace studies), a business puzzle (business), a legal enigma (law), an ethical puzzle (ethics), a philosophical puzzle (philosophy), a mathematical puzzle (mathematics), a logical enigma (logic), a psychological puzzle (psychology), a biological enigma (biology), a chemical puzzle (chemistry), a physical enigma (physics), an astronomical puzzle (astronomy), a geological enigma (geology), a meteorological puzzle (meteorology), an ecological enigma (ecology), an anthropological puzzle (anthropology), an archaeological enigma (archaeology), a paleontological puzzle
